-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION***Specification***

The disclosure is objected to because of the following informalities: Any "Prior Art" information in the "Brief Description" should be labeled as such. Also, the "memory rubber" described in the specification is unclear. It is not clear as to what it encompasses. Is it just regular rubber material or is it a "viscoelastic foam" which is considered to be "memory material". Is it a rubber that just retains its memory or is it a rubber that stretches to a different shape and then returns to its original shape. On page 3, line 14 "support" and "feel" should read - - supports- - and - - feels- - .

Appropriate correction is required.

Drawings

The drawings are objected to because Figure 5 needs to be labeled as "Prior Art". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining

figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claim 1 is objected to because of the following informalities: in line 4 insert "the" after "to". Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear as to what the term "memory rubber" encompasses for the same reasons as discussed above in the Specification Objection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3765

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Suen et al (US 5,782,671).

Suen et al discloses a cup structure with a surface layer (41) as seen in figure 7; an inter piece of soft material (soft and supple plastic material, col. 2, line 59) with a plurality of holes (26), massaging bosses (3) and an inside layer (42), support pad (23) and a support frame (27) as seen in figure 9. The interpiece is plastic and keeps its memory as broadly claimed and the surface layer and inside layer are of air-impermeable fabric as broadly claimed. (See Suen et al figures 4-7 and 9 and col. 2, line 54 – col. 3, line 50).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
